Easy-to-Use,
Affordable GPS Fleet
Tracking Solution

provided by
 **iota**

IMPROVE SAFETY

- ✓ Monitor and reduce unsafe driving.
- ✓ Locate stolen vehicles.
- ✓ Stop unauthorized usage.
- ✓ Create alerts for unauthorized use, speeding, geo-fencing, and more.
- ✓ Ensure driver compliance with DOT standards.

IMPROVE EFFICIENCY

- ✓ Know where your vehicles are at all times.
- ✓ Reduce fuel consumption with better routing.
- ✓ Dispatch more efficiently through route data management.
- ✓ Saves time and money to help Motor Carriers increase profits.

ENSURE COMPLIANCE

- ✓ All new rule sets including state variances and exception rule sets.
- ✓ Country specific rule sets for U.S.A., Canada & Mexico.
- ✓ Automated duty status changes and electronic driver logs.
- ✓ Restart rules, rest breaks and sleeper berth, personal conveyance and yard moves provisions are included.
- ✓ Advanced Alerting and Notification System lets users know before compliance errors occur.

WHY ELD AND IFTA REPORTING?

There have been many recent changes in the Transportation Industry. New DOT mandates impact Motor Carriers on many levels, including the way their drivers operate which ultimately affects a company's bottom line!

FLEET SOLUTIONS, NEED MORE?

GATEKEYPER®

Manage access to vehicles and heavy equipment through a user sign on and question/answer process, which prevents unauthorized or untrained operators from starting or operating equipment.

- Works on same equipment as GROVR E-TRACK
- Instant remote operation control
- Protects owners from litigation
- Multi-language system
